For the Seed Trade...

It is our pleasure to present for your consideration this "war time" edition of our Wholesale Flower Seed Catalog, covering items we are growing for 1943 crop delivery.

During these strenuous days, when food production is so necessary to maintain our all out war effort; we were happy to voluntarily reduce our Flower Seed acreage this season to about one-third of that farmed last year, and have planted the balance to essential food crops.

Our reduced acreage is naturally reflected by the number of items dropped from this list—and probably will be brought home harder at harvest, when it will be necessary to pro-rate the available supply of short items equally among our regular customers. However, we still hope to be able to take care of your usual requirements on most varieties, and will do our best to fill these orders in full.

We are proud that some thirty odd members of our pre-war personnel are now serving in the U. S. Army and Navy, as officers and enlisted men. Although these enlistments seriously impaired our efficiency last year, we are now satisfactorily adjusted and expect to be able to handle our reduced acreage efficiently, and make prompt shipment after harvest.

It would be an easy matter to let quality slip by the wayside, during these days of a sellers' market. But we can assure you, that it will ever be our policy to maintain our pre-war stocks, and sell only those worthy to be called "California's Best."

We want to take this opportunity to thank you, our customers, for your friendship and loyal patronage during the past year. It was a trying year for both of us, and your patience and understanding were indeed appreciated. Your continued confidence will enable us to keep supplying the best in Flower Seeds and we shall constantly strive to merit your repeat business.

Terms and Conditions of Delivery...

All seeds are offered F.O.B. Santa Maria, California, for delivery from 1943 crop as soon as possible after harvest. Invoices to firms of established credit are subject to a discount of 2% for cash in 30 days from invoice date, or 60 days net. New customers should furnish two credit references if shipment is desired on an open account basis. Otherwise delivery will be made C.O.D. All foreign invoices are payable in U. S. Dollars at the current rate of exchange. All overdue accounts are subject to a sight draft without further notice.

Unless otherwise specified on your orders, all shipments will be forwarded via the most economical method of rail transportation. Parcel Post and Express packages arrive in Chicago on the fourth day or at New York City in five days from Santa Maria. All rail freight shipments will be routed over the most direct line to your city. If any of the main truck highways pass through your immediate vicinity, we suggest that you investigate this method of freight delivery, as we have recently had good success and prompt service by using these Motor Freight facilities.

Prices quoted in this catalog apply against all 1943 crop purchases, and are effective immediately on all spot orders. We reserve the right to change these prices at anytime without giving further notice. We are Wholesale Growers and supply the Seed Trade only.

Bags and containers will be charged at net cost. We will be pleased to have you return any used cotton bags in good condition on a 50% discount basis. Kraft paper packets and cotton bags less than the one pound size will be supplied gratis. All orders for four ounces or more will be charged at the pound rate, less than four ounces at the ounce rate. This same billing scale will be used on items listed by the ounce and 1/16 ounce, unless otherwise priced in our catalog.

We will plant sufficient land to produce the quantity of seed ordered under normal conditions; however, crop failure or any other cause beyond our control releases us from delivery and in the event of shortages, we will fill contract orders on a pro-rata basis only.

We give no warranty, express or implied, as to the productiveness of any seed we sell and will not be in any way responsible for the crop. Our liability in all instances, is limited to the purchase price of the seed. (Standard non-warranty clause of American Seed Trade Association.)

EARLY FLOWERING SPENCER SWEET PEAS

The continued popularity of Sweet Peas as a Florist cut-flower, is undoubtedly due to the steady improvement being made in color and size of bloom. We are specialists in the production of Florist varieties and have originated many of the current market favorites.

INTERMEDIATE OR SPRING FLOWERING SPENCER SWEET PEAS

This is a comparatively new class of "Early" Sweet Pea, that has remarkable heat resistance for flowering outside during the late Spring months. Heavy vines and strong stems are characteristic of this group. Varieties with a star (★) are also Winter Flowering when planted in August or September, but the others will not bloom until early Spring.

FIFTEEN BEST SUMMER SPENCER SWEET PEAS

The large number of Late Spencer Sweet Peas now being grown are indeed confusing to the average Seedsman. Many of these colors are older introductions and usually inferior to the newer sorts. We are glad to recommend the following varieties, which our trials have shown to be the best on the market.

Bonny Briar , rose pink	Maytime , golden cerise
Capri , light blue	Patricia Unwin , golden salmon
Flagship , navy blue	Rubicund , crimson scarlet
Flamingo , orange scarlet	Snow White , white
Flora , deep lavender	Sweet Afton , silver pink
Golden Dragon , orange	Welcome , scarlet
Loch Lomond , mahogany	What Joy , cream
Windsor Blue , mid-blue

As a conservation measure and aid to the general war-effort, we have omitted all flower illustrations and reduced the size of this 1943 crop catalog. We still have electros on most of the items illustrated in last year's catalog, which we are pleased to offer as long as they last at cost to us. We also can supply a good selection of black and white flower photos — or make them to your specifications.

STOCK GIANTS OF CALIFORNIA

In the Branching types of Stock, the Giants of California varieties rate first choice for all forcing or greenhouse purposes. Its early and free flowering characteristics are familiar to most Florists. Seedsmen like to handle this strain because there are never any complaints on doubles percentage, as all Giants of California varieties will average better than **70% double!** One mammoth spike can be produced if the plants are transplanted into four or six inch squares — but if set farther apart they will produce well branched plants with long stems of florets. Two inch, closely spaced florets are typical of this strain.

STOCK EARLY COLONIAL BRANCHING

This Early Colonial Stock does not produce a center spike, so therefore requires no pinching to make it branch. From the base of each plant, eight to ten heavy thirty-inch branches spread out and produce a plant twenty inches in diameter. Large two inch florets are typical of this new strain and they form clusters or spikes fifteen inches long. Doubles percentage will average better than 70%.
